

Innovative Food Technology Solutions for Meeting Today's Nutrition and Health Needs

Friday, 15 May 2015
Pacifico Yokohama
Room 313-314
12.30 – 13.30 h

Speaker
Glen Gibson, PhD
University of Reading
United Kingdom

Chairperson
Kavita Karnik,
M.Med.Sci, PhD
Global Nutrition
Tate & Lyle
United Kingdom

In this seminar, Professor Glen Gibson, PhD, a leader in gut health and carbohydrate research, will explore how food technology solutions can address public health and nutrition needs. Advances in fibre research will be presented demonstrating the role of added fibres in helping to meet dietary fibre recommendations while providing health benefits similar to intrinsic fibres. Specific health benefits that will be discussed include weight management, blood glucose control, healthy laxation, and overall digestive health.

Presented by:
Tate & Lyle, a global provider of ingredients and solutions to the food and beverage industry, invests in research and innovation to help meet today's nutrition, health and wellness needs by addressing fibre and protein enrichment as well as sodium and calorie reduction.
